UNDER THE ALPS

ITALY GREET SWITZERLAND UNDERGROUND: THE MEETING OF THE TWO PROCESSIONS AT IRON GATE DIVIDING THE TUNNEL. On the morning of April 2 two processions entered the tunnel in trains, the one from Brig on the Swiss side, the other from Iselle from the Italian side. Amid a scene of great enthusiasm the dividing door midway was thrown open, and greetings were exchanged between the parties. The Bishop of Novara and the Bishop of Sion embraced, and thereafter solemnly blessed the tunnel.

DON'TS FOR THE YOUNG.

Don't think it smart to be sarcastic. Rudeness is often mistaken for wit. Don't grow old too rapidly. The world is sweeter in youth than old age.

Don't write social letters on a typewriter. Only business letters should be "machine made."

Don't laugh nor talk loudly in public places, nor in any way attract undue attention. It is vulgar to force one's self on the notice of others.

Don't risk meeting with accident to prove yourself brave. Many persons are seriously hurt through foolishness and a desire to "show off."

Don't lose your temper because it rains on a day when you have planned for an outing. The elements cannot postpone work, but you can postpone pleasure.

Don't ape the manners of the blase man or woman. It is sad to see these living who no longer take a keen interest in life. The world is full of beauty, change and goodness.

Don't linger in the hall or at the door when taking leave of host and hostess. Your call is ended when you rise to depart and you should "stand not upon the order of going, but go at once."

An Amusing Egg Trick.

Here is a trick that will amuse you. Puncture the shell of a raw egg with a pin, and through the hole thus made extract the contents. When the shell has become dry pour fine sand through the pinhole until the egg is about one-fourth filled. Then seal up the hole with white wax, and your imitation egg will be as natural in appearance as a real one. Then tell your companions that you can make an egg obey your slightest wish, standing on the edge of a knife, the rim of a glass, or whatever you will. Of course, no one will believe you, but you can prove you are right. The only secret is to tap the egg gently every time you change its position, so that the sand will settle at the bottom, and keep the egg upright in just the position you wish.
